INTERVENTIONS TO MODIFY HUMAN HEALTH: VITAMIN D ... AND PREGNANCY TOO

By

**Kent T. HayGlass, PhD
Professor of Immunology
University of Manitoba**

Dr. Kent T. HayGlass received his B.Sc. from Queen's University and his Ph.D. from the University of Western Ontario, followed by a postdoctoral fellowship at Harvard Medical School. He is currently a Professor in the Department of Immunology at the University of Manitoba, where his team studies the normal development of immunity in babies, teens and adults, and what factors influence development of allergic diseases. He held a Tier 1 Canada Research Chair in Immune Regulation from 2001-2017 and has served in numerous academic leadership positions, including Department Head (Immunology), Director of Research, Grants and Research Promotion (Children's Hospital Research Institute of Manitoba) and Director of Advanced Degrees in Medicine (University of Manitoba).
